NOVA NEON FLEX 6.1

Product description

- Profile dimension:6*12/8*16MM
- Light sources: High bright 9V 2835 LEDs
- LEDs/meter:100leds/M 35-38LM/LED
- Power consumption:11W/M
- Input voltage:12V/DC
- Cutting unit: Each LED 1cm cut
- Max Loading Length:5M
- Packing:50M/roll,1 or 2rolls in Carton

Features

- MINI-size much flexible for banding & designing
- Ultra-Bright LEDs, no heat radiation
- Long life span
- Flexible light body, unbreakable
- Energy-saving and eco-friendly
- UV &Water-proof silicon material
- Not change color in the air, fire-resistant
- Wide application for indoors and outdoors
- Various colors jacket and Leds for signs making
- Cut on each ONE LED anywhere you want to.

LED Neon Rope light in silicon 6x12mms size that is the most popular size for led motif and sign letters making, it is various of silicon jacket color, it is stable and safe for designing and decoration, such as ads motif, letters, room decoration designing and so on. It is easy for bending and installation. With smooth and delicate light effect it was very high praised by our customer.

Product´s description

- Profile dimension:6*12/8*16MM
- Light sources: High bright 3838RGB LEDs
- LEDs/meter: 120leds/M
- Power consumption: 14W/M
- Input voltage:12V/DC
- Cutting unit: Each LED 1cm cut
- Max Loading Length:5M
- Packing:50M/roll,1 or 2rolls in Carton

Features

- MINI-size much flexible for banding & designing
- Ultra-Bright LEDs, no heat radiation
- Long life span
- Flexible light body, unbreakable
- Energy-saving and eco-friendly
- UV &Water-proof silicon material
- Not change color in the air, fire-resistant
- Wide application for indoors and outdoors
- Color flashing effect with controller.
- Cut on each 3LEDs(2.5CM) .

12/16mm

6/8mm

LED Neon Rope light in silicon 6x12mm/8*16mm size RGB with controller it can be flashing with marvellous lights effect, for it is slim size and flashing light effect it is used specially for logo or motif designing. It is each 3LEDs can be cuttable, easy for designing and cutting, it is attractive in the logo advertisements. Anyhow it must be connected with the controller, if use outdoors it must be well waterproofed with silicon caps.

Product´s description

- Profile dimension:6*12/8*16MM
- Light sources: High bright 2835 LEDs
- LEDs/meter:120leds/M LM:24-26LM/led
- Power consumption:9-10W/M
- Input voltage:12V/DC
- Cutting unit: Each LED 2.5cm cut
- Max Loading Length:5M
- Packing:50M/roll,1 or 2 rolls in Carton

Features

- MINI-size much flexible for banding & designing
- Ultra-bright LEDs, no heat radiation
- Long life span
- Flexible light body, unbreakable
- Energy-saving and eco-friendly
- UV & Water-proof silicon material
- Not change color in the air, fire-resistant
- Wide application for indoors and outdoors
- Dimmable with 12V dimming controller
- Cut on each 3LEDs(2.5CM) .
